**GROCERY**

The items included on these lists are important to have whether evacuating or sheltering-in.

Have enough supplies for up to five days if sheltering-in. It is a good idea to pack snacks, meals, and drinks for about three days if you are evacuating. If you are evacuating to a private residence, hotel, etc. it may be easier to get your groceries once you reach your destination. You may already have these items at home. If so, make sure you know where they are and that they are easily accessible.

**Grocery Check List**
- Water (3 gallons per person)
- Gatorade/Powerade/Pedialyte
- Canned meats
- Canned fruits
- Canned vegetables
- Hand operated can opener
- High energy food: peanut butter, crackers, granola, etc
- Cash
- Insect Repellant
- Special Dietary Items
- Special Items

**Hardware**
- Utility knife (razor blade, etc)
- Flashlight and batteries
- Wrench (to turn off water, etc)
- Pliers
- Battery powered lantern
- Tape (Duct Tape)
- Compass
- Plastic sheeting/Tarp
- Matches

**Clothing**
What clothing items will I take? ______

**Bedding**
What bedding items will I take? ______

Do I have waterproof containers to keep the supplies in whether I am sheltering-in or evacuating? □ Yes □ No

How much time will I need to complete this?

**Remember** The best recommendations for plywood window coverings are ½ or 5/8 inch plywood if shutters or other window coverings are not available.
The items included on these lists are important to have whether evacuating or sheltering-in. Have enough supplies for up to five days. You may already have these items at home, if so, make sure you know where they are and that they are easily accessible. Refer to the Library for information about priority response.

COMMON TERMS

Chemical emergency
A hazardous chemical has been released and the release
has the potential for harming people’s health.

Contraflow
Lane reversal plans that alter the normal flow of traffic,
typically on a controlled-access highway.

Flash flood
A rapid and extreme flow of high water into a
normally dry area, or a rapid water level rise in a
stream or creek above a predetermined flood level,
beginning within 6 hours of the causative event.

Severe Thunderstorm WATCH
Severe thunderstorms are possible in our area.

Severe Thunderstorm WARNING
Severe thunderstorms are occurring. Remember,
tornadoes occasionally develop in areas in which a
severe thunderstorm watch or warning is in effect.
Remain alert to signs of an approaching tornado and
seek shelter if threatening conditions exist.

Tornado WARNING
A tornado has been sighted or indicated by weather radar.
If a tornado warning is issued for your area and the sky
becomes threatening, move to your pre-designated
place of safety.

Tornado WATCH
Tornadoes are possible in our area. Remain
alert for approaching storms.

SIGNs OF A TORNADO

• Strong, persistent rotation in the cloud base.
• Whirling dust and or debris on ground underneath
cloud base.
• Tornadoes do not always have visible funnels – can be
rain wrapped.
• Hail or heavy rain followed by either absolute calm or
extreme wind shift.
• Loud continuous roar or rumble unlike thunder that fades
within seconds.
• Visible small, bright, blue and green to white power
flashes at ground level.

TORNADO CLASSIFICATIONS

EF-0 40-72 mph, Light damage, chimney damage, tree
branches broken

EF-1 73-112 mph, Moderate damage, mobile homes pushed off
foundation or flipped over

EF-2 113-157 mph, Considerable damage, mobile homes demolished,
trees uprooted

EF-3 158-205 mph, Severe damage, roofs and walls torn down,
trains overturned, cars thrown around

EF-4 207-260 mph, Devastating damage, well-constructed
walls leveled

EF-5 261-318 mph, Violent damage, homes lifted off foundation and
carried considerable distances, autos thrown as far as 100 meters.
